Todd, there is a fact sheet on risk assessment created by our TASC. Can you take a look at it and comment if needed.

Thanks

Not urgent but carry over items regarding 3 draft TASC presentations for us to evaluate before the next CAG or technical meeting (naturally they can be spaced out by Terrie). Gave Stephanie first pass at them in December as everyone else had plenty of other things to do. She has placed them on SharePoint for review. As time permits over the next couple of weeks, let's review and discuss where needed.

Thanks,

I loaded the Risk Assessment and TCLP Fact Sheets with comments on the OU1 Share Pt site and the Air Monitoring Fact Sheet on OU2 – seemed like it was most appropriate, but you may do what you like with them. Please let me or Chuck know if you have questions or comments.

Thank you!
